

Entrance to Interstate 15 Express Lanes from Northbound State Route 163 Closed: Construction Advisory #1

Detour Planned for Approximately Three Months

Beginning Monday, April 11, the entrance into the Interstate 15 (I-15) Express Lanes from northbound State Route 163 (SR 163) will be closed for roughly three months.

There will be a new entrance approximately three-quarters of a mile north of the I-15/SR 163 interchange. Motorists will continue north on SR 163 to I-15 and then access the Express Lanes from the far left lane at this new entrance. Express Lane users can also alter their route to enter the Express Lanes at an existing entrance on I-15, just south of the I-15/SR 163 interchange.

This closure is necessary for construction crews to complete important paving and concrete barrier work on the entrance ramp. This is the first major closure in a series of closures that will occur throughout this spring, summer and fall, that will ultimately allow our crews to complete the South Segment of the I-15 Express Lanes Project. Motorists should expect delays as traffic congestion is expected in the Miramar area.

How to Stay Informed

Save yourself time and frustration. Call or visit us online to learn about your travel options and plan your commute during these closures.

Overview

The I-15 Express Lanes Project is being constructed in three segments: North, Middle and South. The construction in the South Segment began in 2008 and is expected to be completed by late 2011/early 2012.
